NHS GG&C Board Approval

Dear Prof S Zuberi

Study Title:	Can stratification of childhood epilepsy through detailed phenotyping and whole genome sequencing identify novel genetic aetiologies and genetic modifiers of treatment response?
Principal Investigator:	Professor Sameer Zuberi
GG&C HB site	The Royal Hospital for Sick Children
Sponsor	NHS Greater Glasgow and Clyde
R&D reference:	GN15NE178
REC reference:	16/SS/0054
Protocol no: (including version and date)	Version 1.1 – 04/04/2016

I am pleased to confirm that Greater Glasgow & Clyde Health Board is now able to grant **Approval** for the above study.

Conditions of Approval

1. **For Clinical Trials** as defined by the Medicines for Human Use Clinical Trial Regulations, 2004
 - a. During the life span of the study GGHB requires the following information relating to this site
 - i. Notification of any potential serious breaches.
 - ii. Notification of any regulatory inspections.

It is your responsibility to ensure that all staff involved in the study at this site have the appropriate GCP training according to the GGHB GCP policy (www.nhsggc.org.uk/content/default.asp?page=s1411), evidence of such training to be filed in the site file.

2. **For all studies** the following information is required during their lifespan.
 - a. Recruitment Numbers on a quarterly basis
 - b. Any change of staff named on the original SSI form
 - c. Any amendments – Substantial or Non Substantial

- d. Notification of Trial/study end including final recruitment figures
- e. Final Report & Copies of Publications/Abstracts

Please add this approval to your study file as this letter may be subject to audit and monitoring.

Your personal information will be held on a secure national web-based NHS database.

I wish you every success with this research study

Yours sincerely,

Paul Dearie
Research Co-ordinator
